Computer Science Student at Psut || Certificated Google Data analytics

Amman

Summary

A young man who is passionate about Data analysis, problem-solving, mobile application reading books, and I am willing to learn new things and be the best at everything I put my hands on.

Experience

Bright engineers

Coach

September 2019 - Present (2 years 10 months)

Amman, Jordan

I work as a coach there. I teach kids ages 9 to 16 how to program and design robots with Lego Mindstorm (ev3) technology.

Jerusalem Insurance Company - شركة القدس للتأمين

Intern

September 2021 - September 2021 (1 month)

Amman, Jordan

It was a three-week training program in which we were basically trained in every department they have such as the motor department, life insurance department, and digital transformation department, and the goal of this internship was to find an idea in an existing product or a new idea that will help the company in the future and the winner would take 700 USD home, and my idea was to build a mobile application using flutter. I did a presentation (I'll put the link in the media), unfortunately; I didn't win, but I learned a lot from this experience. I met new people and learned what it's like to work in an office, but overall, I had such a fantastic time.

Education

Princess Sumaya University for Technology

Bachelor's degree, Computer Science · (2019 - 2023)
